My

STORY WITH

JIANGSU UNIVERSITY

When I first told my mom that I wanted to attend the Jiangsu University (JSU), my eyes were met with quizzical stares since my announcement was quite unexpected. I've grown up in a tiny Island of south Thailand with only several thousand people, the only schools that received a perfect ten in my mind were small colleges in communities much like my own. However,

much as I adore my home, I later began to crave the hustle and bustle of city life and realized that I needed to experience a different environment. Studying at Jiangsu University offers an experience that goes way beyond the classroom. Life on our dynamic, friendly campuses never stops changing,

Me: I want to reach the world and communicate with love.

JSU: PLATFORM GRANTED! 21st century offers unlimited opportunities for communication. As a JSU student, you are not just limited to the conventional perspective of "Communication". Your communication skills should not just be limited to "verbal" conclusions but "actively" making real-world connections.

C **ommunication**

Me: My Platform called Many Languages, One World, where JSU encouraged and trained me to share ideas and be heard...in the General Assembly Hall of the United Nations as I speak in Chinese about Sustainable Development of the world. This also gave me way to meet new friends and cultures during my visit to New York in 2015.

HOW JSU'S 4Cs PUSHED ME TO SUCCESS

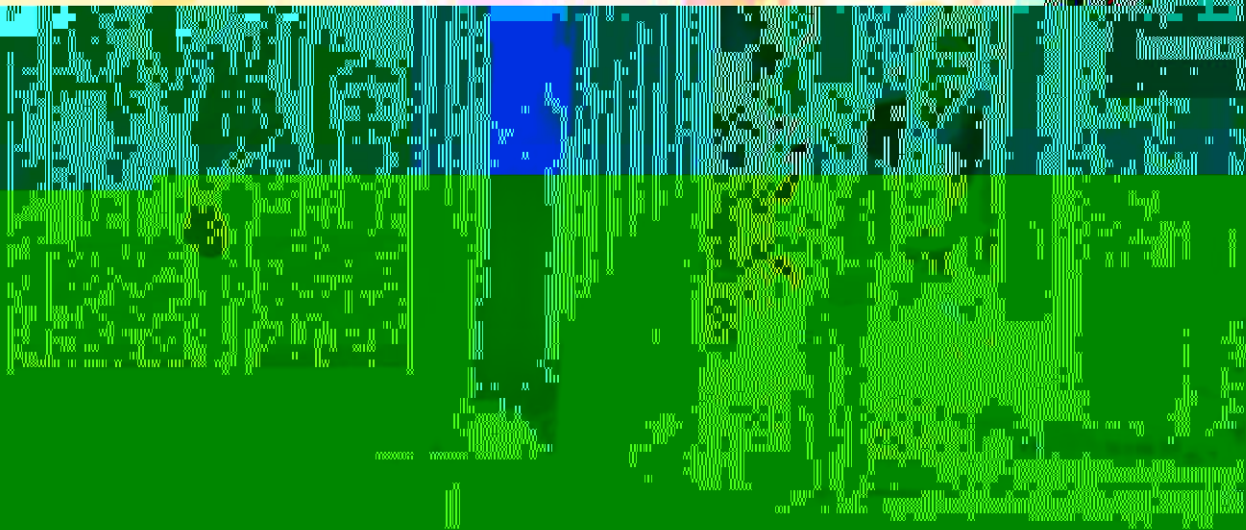

Me: I have talents, I have ideas, I just need a chance to show myself.

JSU: PLATFORM GRANTED! JSU encourages students demonstrate creativity in many forms and through multiple learning style preferences. You are always encouraged to examine and evaluate ideas from different perspectives, think in new directions, and synthesize information in useful ways.
